Until 2021 I sat on the Scientific Council of the Journées de l'Economie (JECO), and organized annual sessions of the JECO.

Research

Thematic summary (with sample publications):

Economic theory and industrial organization (M1-M3, J16, J20-J23, J37, J41).

The evolution of human behavior (M4, J32, J38, J39, J44, J49, J50, J58).

The economics of gender (M5, J32, J51, J53, J54).

The economics of religion (M6, J47, 48, J50, J52, J59).

Political economy (M7, J15, J29, J30, J42).

A common theme to these diverse topics is the foundations of human cooperation and social trust: I examine the way in which our prehistorically evolved psychology interacts with modern social institutions.

Field research sites:

I have done field research in many countries including Cameroon, China, the Czech Republic, Germany, Ghana, Haiti, Hungary, India, Poland, Russia, Slovakia and Sri Lanka.
